- Easily shaped by hand to any geometry or dimension
- No additional flashing or mechanical attachment required
- Waterproof and UV resistant
- Resistant to ice and standing water
- Extra components can be easily stored and reused

our innovations... your success

The FLEXCURB™ Universal Curb Kit replaces old style plastic and metal pitch pans. FLEXCURB™ is the easiest and most universal roof penetration system to help prevent roof leaks. When installed properly, the FLEXCURB™ system forms a durable waterproof rubber seal around roof penetrations.

FLEXCURB™ Form

Flexible L-shaped curb form made of polymer rubber reinforced with aluminum

SB 495 High Performance Adhesive/Sealant

100% solids, high-strength adhesive

SB 490 Liquid Flashing

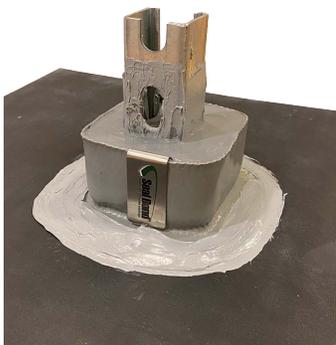

Single component, one-part pourable sealer

SIMPLE. EASY. FAST.

- *Solar Mounting*
- *Electrical*
- *Plumbing*
- *HVAC Linesets*
- *Wiring*
- *Mechanical Fasteners*
