

APPEAL. QUALITY. PERFORMANCE.

Seal Bond™ Garage Door Product Applications:

Advanced technology for lamination, assembly, sealing and coating.

- Panel Lamination – Moisture Cure Urethane/Adhesives – Hot Melt and Liquid
- Stile Bonding – Hybrid Polymer Adhesives
- Foam Insert – Pressure Sensitive and APAO Hot Melt Adhesives
- Panel Edge Sealants – Silicone and Hybrid Polymer
- Face Cladding – Hybrid Polymer Adhesives
- Carriage Door Trim – Hybrid Polymer, Moisture Cure Urethane Hot Melt and Two Component Structural Adhesives

1

Wide range of chemistry options to choose from.

2

Primerless adhesion to a wide variety of substrates.

3

Ideal in extreme temperatures and inclement weather.

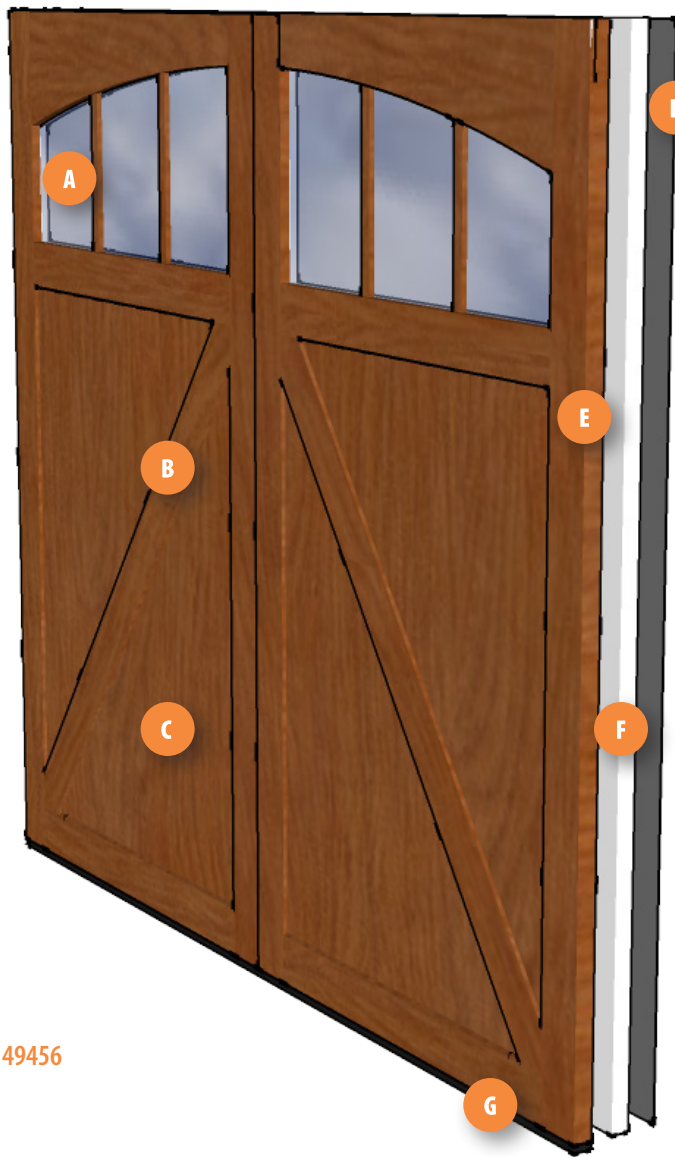

4

Outstanding mechanical properties and performance.

our innovations... your success

Seal Bond offers superior formulary capabilities for traditional bonding and sealing with proprietary hybrid cross-linking technology. This advanced technology replaces isocyanate and solvent-laden products. Whether it's lamination, assembly, sealing or coating applications, Seal Bond is the leader in advanced technological solutions and customer satisfaction.
